RIGGING

Your Trusted Source for Professional Rigging Solutions

Southern Industrial Constructors, Inc. (SIC) provides industry-leading rigging and heavy equipment relocation for manufacturing, process, and power plants across the Southeast and beyond. Our full capabilities extend throughout the entire rigging process—from lifting and erecting to shipping, transportation, and re-installation—for plant machinery, equipment, and structures.

Industry-Leading Capabilities

SIC has a reputation as one of the Southeast's premiere providers of turnkey rigging services for projects of all sizes and difficulties. Some benefits of working with our team include:

- > Extensively trained professionals, including riggers certified with National Commission for the Certification of Crane Operators (NCCCO)
- > Highly insured, including bonding from our parent company EMCOR Group
- > Safety mindset backed by a robust safety program
- > Warehousing capabilities, including receiving, storing, and shipping from our own fully-staffed warehouses or client-owned facilities

- > Cutting-edge technology, including power skates and robotic dollies for large machinery
- > Detail oriented solutions
- > Ten locations across the Southeast

Rapid, Responsive Day-Rigging

While we have the capabilities to handle large-scale rigging projects, our crews are also nimble enough to respond quickly to your day-rigging needs, including servicing quick turnaround jobs. Our typical day rigging client is someone we've performed more substantial projects with, but we also offer services to new customers in the Southeast and beyond.

We are one of the few companies of our size and capabilities in the region that offers day rigging. We work on day-rigging projects lasting anywhere from one day to two weeks—no job is too small.

OUR RIGGING CAPABILITIES:

Complete machinery, equipment, and structure movement

Specialized rigging tools and equipment

- Heavy forklifts and cranes
- Hydraulic and aluminum gantry systems
